

**THERE IS NOTHING LIKE A TENNIS KING LESSON -
DESIGNED FOR THE SERIOUS PLAYER**

“ADDRESS THE BALL FOR ACCURACY”

THE TIME ADDRESS ON THE BALL IS EQUAL TO YOUR COURT PLACEMENTS

The ball circumference is where all of your court addresses are located. The "master address" is 6:00 and it will direct your shot to the middle of the court.

The secondary addresses are five and seven o'clock. They equal the baseline corners. The 4 and 8 o'clock are short angles to the service sidelines. The ball's equator equals the top of the net.

Tennis King "cause & effect"

The next level of address recognition is the measure of the ball's circumference in hours and minutes. The 6:00 is the "master address" and all the other addresses equal some placement on the court. There is no need to

TENNIS EASY AS

1-2-3

The above diagram is an example of an uncluttered conscious mind. As described in earlier notes in greater detail the "3 point formation" consisting of the opponent's impact, the bounce and your impact is all that is needed to respond correctly during point play. The quieting down of the consciousness is achieved by removing thought and allowing focus to exist without interruption.

To see the ball is to hit the ball.

***The Tennis King
Equation***

teaches an intense focus technique that creates the player's optimal perspective. The concept of "mind over matter = time over space" allows the player to escape the "event level". At the "composition level" of the game there is a quantum scale of recognition that exists only in "time". The Equation shows the player how to access this time dimension and generate the responses of "physical space".

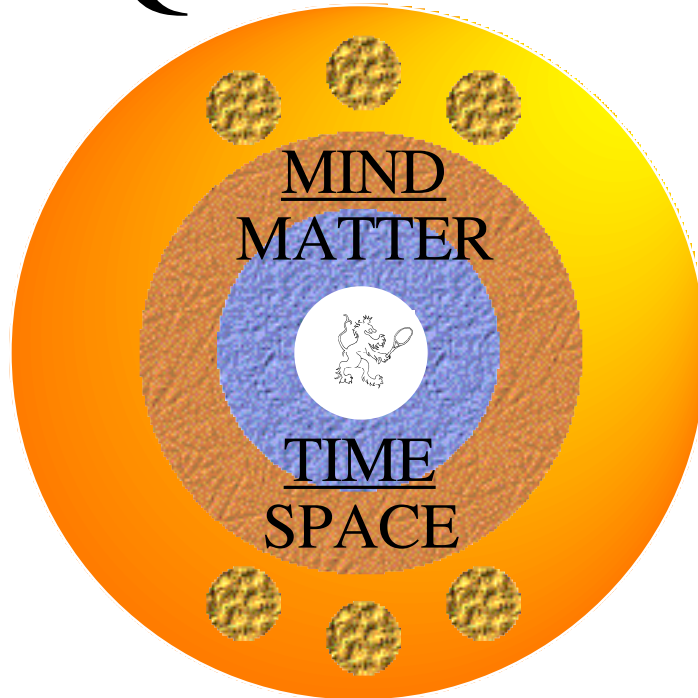

The Tennis King Equation is 176 pages, a full color book, loaded with over 90 illustrations that costs less than a half hour lesson. If you believe tennis is a "mental game" then *this book was written just for you.*

THE ULTIMATE TENNIS BOOK

ANSWERS ALL YOUR TENNIS QUESTIONS - THE QUANTUM APPROACH IS THE ONLY WAY TO ESCAPE THE "EVENT LEVEL" AND GUARANTEE YOUR GAME'S ADVANCEMENT.
